

Putting your dreams within reach

Prestige asset finance

Cars / Prestige to collectors
Aviation / Helicopters to Corporate jets
Marine / Yachts to Superyachts

Our combination of impeccable service, first-hand industry knowledge and proven financial acumen places Lombard alongside the world's most prestigious aviation, yachting and luxury car marques.

Like them, we have spent generations evolving and perfecting our products and our customer service ethic. So if you're purchasing a private jet, yacht or the latest luxury car, it's reassuring to know that we offer a truly one-to-one service that revolves around a commitment to understanding your precise needs.

Our aim is to create tailored finance packages built around your individual ambitions and financial priorities. With Lombard, you know you are dealing with people who have the sector experience, the financial expertise and the service ethic to tailor a solution that fits your needs and your ambitions. Precisely.

Security may be required and product fees may apply.

More and more people are discovering the advantages of asset finance. And our experts are helping to make those advantages more accessible to people like you.

Not only do our funding specialists have the financial expertise to understand your financial priorities, they're also passionate about the assets they help you to acquire. And whether you've got your heart set on a new yacht, a private aircraft or a luxury car, they know each market inside out. Either way, we can guide you step by step towards achieving your ambitions.

Combining passion with knowledge

Freedom of ownership

The field of high-value assets opens up a wide range of ownership options. Using our detailed understanding of your financial position, asset base and tax status, we can guide you through the complexities to the most suitable option.

For example, a growing number of high net worth individuals want the option to own and manage assets through offshore trust structures and special purpose vehicle companies. Our teams can help by documenting complex offshore solutions, as advised by your chosen advisors.

Tailored funding options

Like today's prestige asset markets, the finance packages we offer are extremely diverse. With absolute attention to detail, we can structure a tailored finance package to match your financial circumstances and cashflow requirements.

To maximise your choices, we offer a range of loan periods and allow you to make lump sum repayments at any time. In addition, there is no upper limit on what we can lend.

Security may be required and product fees may apply.

Minimising your risks

We also understand that acquiring prestige assets can take time. Whatever your circumstances and needs, we know how best to structure your finances at every stage of the buying process.

Among other benefits, asset finance can help you achieve your dreams without compromising your lifestyle or your cashflow. What's more, asset finance can also help to minimise your exposure to risk by using the asset we help you acquire as security for your funding facility.

This allows you to optimise your asset portfolio without having to use it as security.

We combine proven financial acumen with first-hand knowledge of the assets you're so passionate about

When an owner selects a new yacht, it is a personal statement that is unique to them. At Lombard, we focus on creating a financial solution that is equally individual.

With more than 50 years' experience in providing personalised marine finance for new and used pleasure vessels, ranging from sailing yachts and motor cruisers to superyachts, we can help structure a finance package to suit you.

Launching your dreams

Enduring relationships

We know that purchasing a yacht is not something that happens overnight, especially when commissioning is involved.

With that in mind, we can assist you on how best to structure your funding solution throughout the process. Another key advantage of working with Lombard is the relationship we have developed with some of the world's finest boat builders and yacht brokers. As well as potentially helping you when sourcing a yacht, this gives the companies you are talking to the reassurance of dealing with a finance company they know and trust.

Launching your dreams

Like the yacht market itself, the finance packages we offer are extremely diverse. We have an extensive range of finance packages, and there is no upper limit on what we can lend. Whatever the sum involved, the only security we normally require is a charge over the vessel and according to your needs, we can arrange our finance packages in euros, dollars or sterling to help insulate you from currency fluctuations. We are also able to tailor repayment periods of up to ten years.

To give you maximum freedom, we offer a range of loan periods and our marine facilities allow you to make lump sum repayments at any time.

Security may be required and product fees may apply.

Prestige asset finance

A private aircraft takes the concept of travel into a whole new dimension. Whether you are flying for business or spending time with loved ones, owning your own aircraft delivers that most valuable of all commodities – time.

As many businesses and private pilots have already discovered, Lombard is dedicated to making the process of acquiring an aircraft easier than ever before. We have experience of creating tailored finance packages for anything from a light aircraft to a business jet or a helicopter.

When the sky is not the limit

Take flight With a network of relationships across the industry, we are accomplished at supporting clients on acquiring executive jet, fixed-wing aircraft and helicopters.

Expert insights

Passionate about every aspect of aviation, our hugely knowledgeable teams have built up relationships across the industry. They are equally experienced at tailoring the right financing package on your behalf and structuring it throughout the purchasing process.

Whether your aircraft is going to be a business tool or a private passion, we can finance aircraft or helicopters that are new or previously owned.

Precisely specified

According to your needs, we can arrange our finance packages in euros, dollars or sterling to help insulate you from currency fluctuations. We are also able to tailor repayment periods of up to ten years. What's more, we normally use the aircraft as security for the finance facility, which means you don't need to tie up other assets.

Security may be required and product fees may apply.

Our passion for the automotive industry combined with our financial expertise makes us the natural choice for both corporate and private owners of luxury cars. In the same way that a client might order a paint finish, leather interior or sports tuning, so we will engineer financial solutions that are built around their exact needs.

This kind of individual attention has enabled us to make the process of purchasing such cars both accessible and hassle-free.

The high performance team

Driving ambition Our passion for the automotive industry combined with our financial expertise makes us a natural choice for both corporate and private owners of luxury cars.

Engineered options

Owning a prestige automobile can be about the raw power or the presence and splendor of a luxury car.

Whatever motivates your purchase, our specialist finance team can put together a finance package that will accelerate your car's journey from the showroom to your driveway.

Individual attention

Our in-depth knowledge of the marketplace means we can assist on everything from sourcing the right car through to selecting the right model.

Our experts are there to meet your individual needs, ensuring a smooth and efficient journey.

Security may be required and product fees may apply.

Prestige asset finance

The one-to-one service that we offer makes the process of acquiring prestige assets accessible and hassle-free. From the very start, one of our experts will act as a single point of contact on your behalf, managing your project throughout and resolving your questions along the way – efficiently, discretely and with the highest level of personal attention.

A private jet is shown in flight, banking to the right, against a clear blue sky. Below the aircraft, a vast expanse of white, fluffy clouds stretches to the horizon, creating a sea of clouds effect. The image is framed by a dark blue gradient at the top and bottom.

Our service ethic is just one of the reasons why so many people choose Lombard to finance their most valuable and treasured assets.

One-to-one relationships

An important advantage of working with Lombard are the relationships we have developed with some of the world's finest marine, aviation and vehicle manufacturers, retailers and brokers. Not only does this help you when sourcing your chosen asset, but it also reassures the businesses you are talking to that they are dealing with asset finance specialists they can trust.

Our commitment to personal service goes well beyond the purchase date. Our experts are dedicated to meeting your ongoing needs and our in-house customer service team is always on hand with any additional help or support you might need.

Our reputation is built on a simple yet uncompromising service ethic: you demand the highest standards of design and maintenance in your most valued assets, and we believe you should expect the same level of excellence from your financial team.

Security may be required and product fees may apply.

Dedicated service

Prestige asset finance

Lombard has specialised exclusively in asset finance for more than 150 years. As the UK's largest asset finance provider, we are part of The Royal Bank of Scotland Group, one of the world's largest banking groups.

In addition to financial reassurance, our membership of the Group gives you access to a wide range of other banking services from select partners, including Adam & Company, Coutts & Co and Drummonds. We also access legal expertise from RBS's respected panel of advisors.

Drawing on our proven heritage and global strength, our ultimate aim is to provide you with a one-to-one service that precisely matches your requirements.
